# Chip Beads (2508056007Y3)

Part Number: 2508056007Y3

MULTI-LAYER CHIP BEAD

Fair-Rite offers a broad selection of cost effective multi-layer chip beads to suppress conducted EMI signals. Chip beads can be used in an array of devices such as cellular phones, computers, laptops, pagers, etc. The small package sizes accommodate automated placements and allow for a dense packaging of circuit boards.

Chip Beads are available in standard, high and GHz signal speeds.

#### Recommended Soldering Profile

#### **Packaging Options:**

-All multi-layer chip beads are supplied taped and reeled, if required bulk packed chip beads can be provided.

The suggested land patterns are in accordance to the latest revision of IPC-7351.

Weight: 0.01 (g)

Package Size: 0805 (2012)

Dim	mm	mm tol	nominal inch	inch misc.

## **Chart Legend**

+ Test frequency

Typical Impedance $(\Omega)$						
50 MHz	43					
100 MHz <sup>+</sup>	60 ±25%					
500 MHz	84					
1000 MHz <sup>+</sup>	-					

Electrical Properties				
Max DCR (Ω)	0.04			
Max Current (mA)	3000			

The impedance values listed are typical values. The nominal impedance with a +/-25% tolerance is specified for the + marked 100 MHz. Chip beads are measured for impedance on the HP 4291A and fixture HP 16192A.

Chip beads are 100% tested for impedance and dc resistance.

Typical Impendance $(\Omega)$					
50 MHz	49				
100 MHz <sup>+</sup>	60 ±25%				
500 MHz	84				
1000 MHz <sup>+</sup>	-
