## Declaration of Fair-Rite Product Corp.'s Non-Use of TBBPA Chemical in Soft Ferrite Ceramic Materials

The soft ferrite *ceramic* material components that Fair-Rite Products Corp. supply do not contain the TetraBromoBisPhenol A (TBBPA) chemical in their composition or make-up.

However, Fair-Rite Products Corp. supplies a product line known as *Snap-its*. These products use a UL94-V0 polypropylene case component that is RoHS 6/6 compliant but does contain TetraBromoBisPhenol A (TBBPA) thereby making these products Bisphenol containing.. This is the only product line which uses the TBBPA chemical.
