

Fair-Rite Products Corp.'s Declaration regarding The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65)

Fair-Rite Products Corp. uses a UL94 V-0 rated polypropylene plastic case in some of our Snap-It product lines. This material contains antimony trioxide, a chemical listed in Proposition 65 as updated **January 2025**, which is known to potentially leach from the component. Antimony trioxide is integral to the UL94 V-0 rated polypropylene plastic case's flame-retardant properties and performance. Its CAS# and weight percentage are listed below.

Chemical Name	Chemical Formula	CAS Number	Weight %
Antimony Trioxide	Sb ₂ O ₃	1309-64-4	5%

Products Impacted

All individual products in the Round Cable Snap-It and Flat Cable Snap-It product lines use a **black** case made of UL94 V-0 rated polypropylene. These products can be identified by a part number starting with '04'. In addition to being offered individually, these products are also included in the following Engineering Kits:

Part Number	Description
0199000005	Expanded Cable & Suppressor Kit
0199000017	61 & 31 Material Snap-It Kit
0199000030	31 Material Snap-It Kit
0199000031	43 Material Snap-It Kit
0199000032	46 Material Core and Snap-It Kit
0199000033	61 Material Snap-It Kit
0199000041	75 Material Snap-It Kit
0199000042	Signal Solution Kit

Products Not Impacted

All parts offered by Fair-Rite Products Corp. other than those referenced above are fully compliant with Proposition 65. This includes the Oval Snap-It product line, whose part numbers also start with '04' but utilize a **blue** nylon case.
