

## Fair-Rite Products Corp. Declaration Regarding PFAs, et al.

This declaration certifies that Fair-Rite Products Corp.'s products and processes **do not contain** any form of PFAs nor related substances. PFAs, often referred to as “forever chemicals” are a group of thousands of fluorocarbon substances. Many jurisdictions have varying definitions of PFAs, so this declaration applies to the broadest regulatory definition, including any fluorinated substance that contains at least one fully fluorinated carbon atom. This includes all substances as defined by the US EPA, EU, UK, Canada, and the OECD. Examples of these are PerFluoroOctaneSulfonate (PFOS), PerFluoroOctaneAcid (PFOA), Perfluorononanoic acid (PFNA), PerFluoroalkyl Carboxylic Acids (PFCA), PerFluoroHexane Sulfonate (PFHxS), Perfluoroheptanoic acid (PFHpA), Perfluorodecanoic acid (PFDA) nor other Per- and PolyFluoroAlkyl Substances (PFAS).

In addition, the above listed substances are not intentionally added to our materials, are not present in our supply chain and are not used as processing aids.
